# RINRAPAS JITPREEDASAKUL

## IT FOR BUSINESS STUDENT

Bangkok, Thailand │ rinrapas.j@gmail.com │ linkedin.com/in/rinrapas

## SUMMARY

Motivated IT student with a strong interest in cybersecurity, particularly in the security of AI. Actively learning about vulnerabilities in AI and prompt injection, while strengthening core technical skills in networking, scripting, and threat analysis. Seeking opportunities to apply these skills in real-world environments and contribute to secure AI implementation.

## PROFESSIONAL EXPERIENCE

**Co-Founder & Product/Strategy Lead, Restart**                    **Dec 2024 - Present**
- Developed the business model, estimated market size, and analyzed employer-side hiring demand to ensure practical feasibility and impact.
- Participated in early-stage product ideation; contributed to initial feature design.
- Interpreted statistical data from correctional institutions to support product direction.
- Coordinated with the Thailand Institute of Justice (TIJ) to receive legal and reintegration advisory for aligning with real-world reintegration needs.

## PROJECTS

**Smish - Phishing Detection Mobile App**                           **May 2025**
- Developed Smish, an iOS application built with SwiftUI that scans and classifies SMS messages to detect potential phishing using a lightweight machine learning model.
- Built an in-app dashboard providing users with awareness content and scam trends, aimed at reducing social engineering risks.
- Integrated a user-friendly dashboard to educate users about common scam tactics, prevention tips, and statistics on suspicious messages to raise digital awareness.

**Restart - Chula LegalTech Case Competetion**               **Dec 2024 - Mar 2025**
Participant, 2nd Runner-Up
- Collaborating with a multidisciplinary team to develop "Restart", a hiring platform designed to assist ex-offenders in finding employment while reducing risks for employers.
- Conducted business feasibility analysis to measure social and legal impact.
- Led team pitching for "Restart", a LegalTech project supporting ex-offenders.
